Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner called to clarify what applicant was challenging for the date of "Inside the Cisco Website", as a page was sent documenting that the article was published in the Nov/Dec 1997 issue:

Sue Aragon-Stemel: Inside Cisco's Website

"I'd like to say we had a plan of grand proportions, but what really happened is the plan evolved as we built each new application." (From Nov/Dec 1997) "IEEE Internet Computing" magazine.

this link can be found at <http://www.computer.org/internet/arch.htm> and the title (from Nov/Dec 1997 issue) can be clicked on and the article can be viewed. .

Examiner also inquired on the Rule 105 request, to which applicant replied that the information was not readily available. Examiner was unsure if applicants were still attempting to obtain the information on when the assignee, Cisco, had the information on its own website, or whether examiner should proceed without it. Applicant stated that they had responded to the Rule 105 request.
